

CAPABILITIES

Everything we can build into a *website*.

A plain list of what is on the table, so you can point at the parts you need instead of guessing what is possible. Most sites use some of this. None of it is an add-on we invented to pad an invoice.

DESIGN

BOOKING

FORMS

INTEGRATIONS

MOTION

CMS

SEO

The full *toolkit*.

01

Design

Every site is drawn from scratch around your business. No themes, no page builders, and no two of our sites looking like cousins.

CUSTOM DESIGN

BRAND-LED TYPE & COLOUR

LIGHT & DARK MODES

PHOTOGRAPHY DIRECTION

EDITORIAL LAYOUTS

02

Mobile & responsive

Built phone-first and tested that way round, because that is where most of your customers actually arrive.

PHONE-FIRST BUILD

TABLET & DESKTOP

TOUCH-FRIENDLY TARGETS

TESTED ON REAL DEVICES

03

Booking & enquiry

The point of the site. Whatever route your customer prefers, it should take one tap.

APPOINTMENT BOOKING

ENQUIRY FORMS

WHATSAPP HANDOFF

CLICK-TO-CALL

CALLBACK REQUESTS

04

Forms & data

Forms that validate properly, land in your inbox reliably, and do not lose an enquiry when someone fat-fingers a field.

MULTI-STEP FORMS

VALIDATION

FILE UPLOADS

EMAIL ROUTING

SPAM PROTECTION

05 Integrations

Your site should talk to the tools you already use rather than become another island.

GOOGLE MAPS

ANALYTICS

PAYMENT GATEWAYS

CALENDARS

CRM & SHEETS

REVIEW PLATFORMS

06 Motion & interaction

Movement used to guide attention, never for its own sake, and never at the cost of speed.

SCROLL ANIMATIONS

CANVAS & SHADER MOTION

CAROUSELS

VIDEO BACKGROUNDS

MICRO-INTERACTIONS

07 CMS & admin panels

Edit your own content without calling us, on a panel built for the way you actually update things.

CONTENT EDITING

MEDIA LIBRARY

ROLE-BASED ACCESS

NOTICES & BLOG

CUSTOM DASHBOARDS

08 SEO foundations

The groundwork that decides whether Google can read your site properly and whether a shared link looks like anything.

TITLES & DESCRIPTIONS

STRUCTURED DATA

SITEMAP & ROBOTS

SOCIAL PREVIEW CARDS

SPEED & CORE WEB VITALS

You do not need all of *it*.

A single-doctor clinic usually needs a clean site, booking, a map and solid SEO. A multi-branch practice needs a CMS and role-based access. A retail brand needs payments and a product catalogue.

We will tell you which of these actually moves the needle for your situation, and which ones would just be us charging you for work you do not need yet.
