

SELECTED WORK

Work we put our *name on*.

A selection from the sites we have designed and built. Every one is live, so you can open any of them and judge for yourself rather than take our word for it.

HEALTHCARE

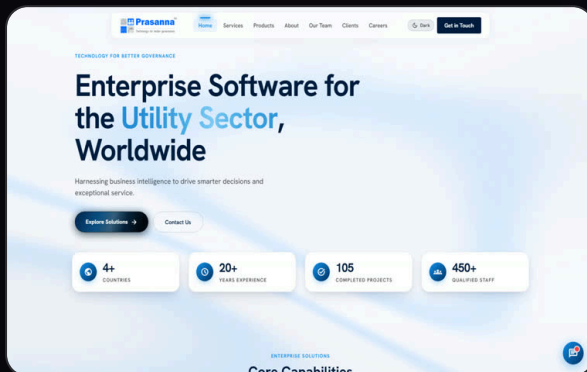

ENTERPRISE

RETAIL & BRAND

EDUCATION

DESIGN

Live sites, real *businesses*.

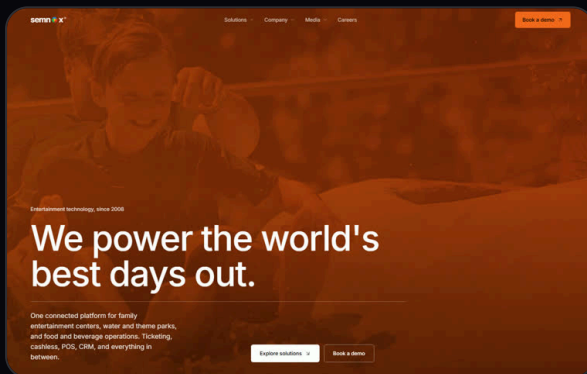

ENTERPRISE SOFTWARE • 4 COUNTRIES

Prasanna Technologies

A corporate site for a firm selling into government and utility procurement, where a multi-year contract can hinge on how established you look. Capabilities, product portfolio, certifications and careers, in light and dark modes.

prasannatechnologies.com

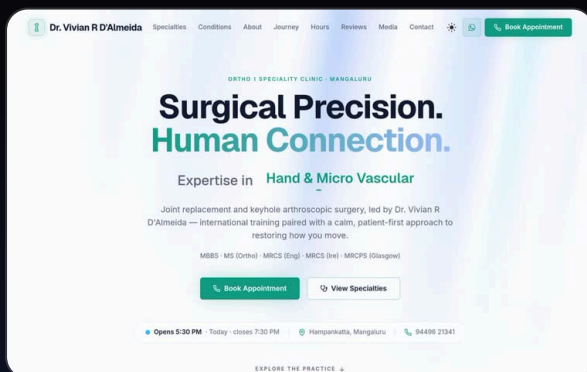

ENTERTAINMENT TECHNOLOGY • WORLDWIDE

Semnox

A platform revamp for technology running theme parks, family entertainment centres and F&B venues globally. Organised around three product suites and the venue types they serve, so each operator finds their own path fast.

semnoxrevamp.vercel.app

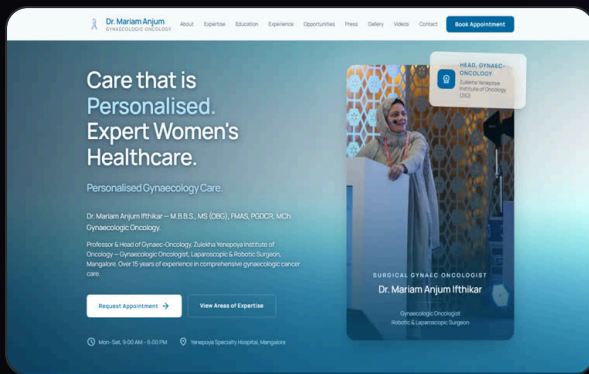

ORTHOPAEDIC SURGERY • MANGALURU

Dr. Vivian R D'Almeida

For the surgeon behind coastal Karnataka's first robotic hip replacement. Built around the conditions patients actually search for, with a patient-journey section that sets expectations before the first visit.

drvivianortho.com

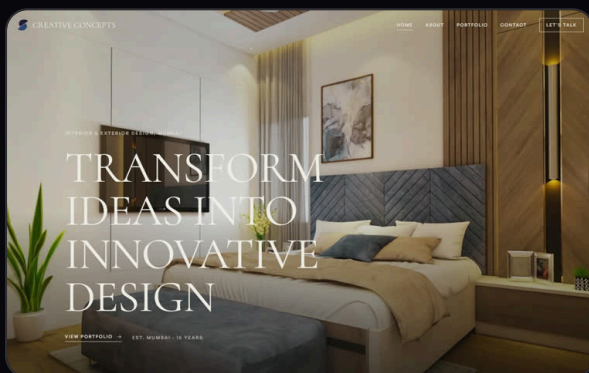

GYNAECOLOGIC ONCOLOGY • MANGALURU

Dr. Mariam Anjum Ifthikar

Professor and Head of Gynaec-Oncology, with two decades in cancer care. A cancer diagnosis is the hardest moment to design for, so the site carries a serious academic record and genuine warmth at once.

drmariamanjumifthikar.com

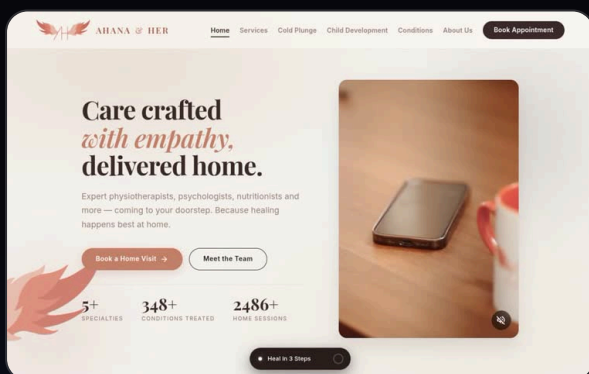

INTERIOR DESIGN STUDIO • MUMBAI

Creative Concepts

In design the portfolio is the pitch. Full-bleed project photography and an editorial type treatment make fifteen years of work feel aspirational before a word is read.

Interior & exterior design

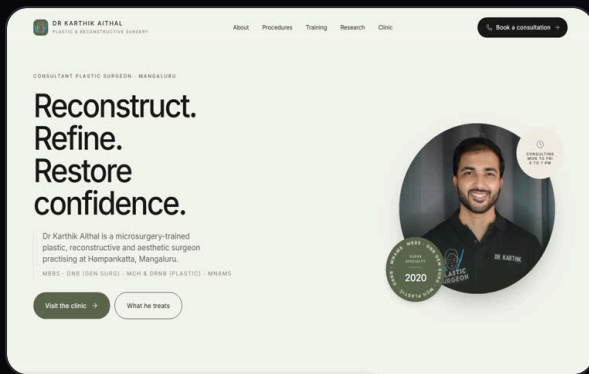

HOME HEALTHCARE • MANGALURU

Ahana Her

At-home physiotherapy, psychology and child development. Arranging care for a family member is a trust decision made under stress, so the site is built around a clear three-step path from enquiry to care.

ahanaher.com

SELECTED WORK — CONTINUED

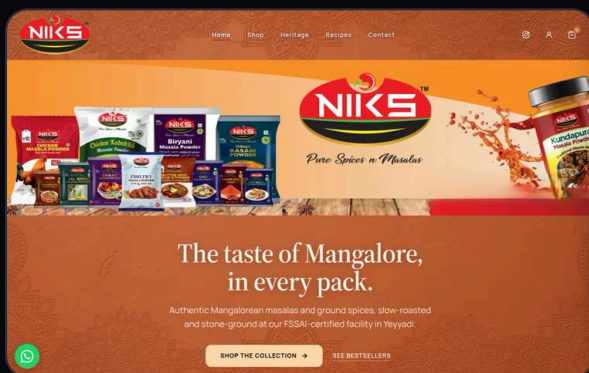

PLASTIC & RECONSTRUCTIVE SURGERY

Dr. Karthik Aithal

A microsurgery-trained reconstructive surgeon. Reconstructive work carries real emotional weight, so the site leads on the outcome — reconstruct, refine, restore confidence — and keeps the surgical record close behind.

drkarthikaithal.com

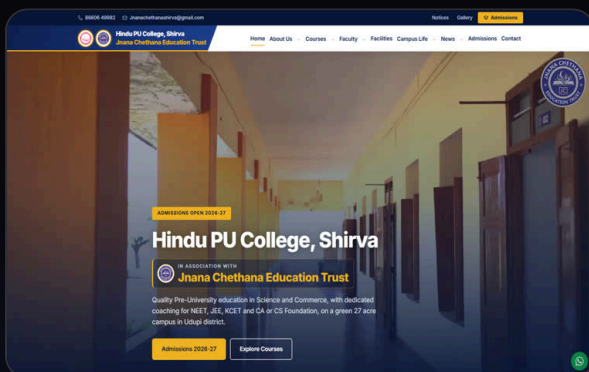

SPICE BRAND • MANGALORE

Nik's Masala

A local spice brand moving to direct-to-consumer and wholesale. Food sells on appetite and provenance, so the range leads, recipe videos show the blends in use, and a separate route handles retailers and gifting.

niksmasala.com

EDUCATION • UDUPI DISTRICT

Hindu PU College, Shirva

A pre-university college judged in admissions season by parents comparing options. Course combinations, competitive exam coaching, faculty, facilities and notices all reachable in a click.

hjcshirva.com

AND THE REST

Many more, all *live*.

The projects on these pages are a sample. The wider portfolio spans multiple speciality clinics and hospitals, many dental practices, orthopaedic and oncology surgeons, paediatrics, retail and FMCG brands, interior design, logistics, hospitality, enterprise software and education — across India and internationally.

The full portfolio, with a breakdown of what each site does and how it was built, lives at summitxstudio.com. Ask us for the link.
